

FOR IMMEDIATE RELEASE

Brookstone Builders, Inc. Supports Hospital Renovation Project

MANCHESTER, NH (July 22, 2019) – Brookstone Builders, Inc., construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have been selected to serve in a supporting role in a renovation project for **St. Joseph Hospital** in Nashua, NH.

Due to an accelerated timeframe for completion, the hospital's facilities department has engaged Brookstone Builders to support their team in renovating the interior of an existing medical office located on Nashua's D.W. Highway. The objective is to modify the overall floorplan to enable more efficient workflow and better patient care.

Scope of work will include adding new walls, millwork, minor electrical upgrades, and various finishes. The office will remain fully operational during the renovation, thus requiring enhanced scheduling, noise abatement, and dust abatement protocols that are commonly required when working in or around occupied space.

Ryan Ouellette will serve as Brookstone Builders' On-site Superintendent.

"We truly appreciate our long-term business relationship with St. Joseph Hospital," said **Paula Scales**, President of Brookstone Builders, Inc. "We're pleased to be able to lend our support to this fast-track project, as our crews are very familiar with the nuances associated with medical office renovations as well as with working in close proximity to occupied space."

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects. For additional information please contact Ms. Paula Scales at (603) 641-9455 or visit www.brookbuild.com.
