## Brookstone Builders, Inc. Awarded University of Massachusetts Repurposing Project

**MANCHESTER, NH** – (July 16, 2018) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have been awarded a repurposing project by the **University of Massachusetts Lowell**.

This project will involve the partial renovation of an existing structure at 203 Riverside Street within the university's Lowell campus, and repurposing the space for trade education and research. Other parts of the building will remain occupied and fully-functional during construction. The scope-of-work will include demolition, abatement, mechanical and electrical work, plumbing, office and bathroom fit-ups, masonry work, finishes, and a small amount of site work.

**Erik Crisman** will serve as Brookstone Builders' Project Manager, and **Dinisco Design** of Boston will be the project's architects.

"We are very happy to be working with U Mass Lowell," said Brookstone Builder's President **Paula Scales**. "Our crews are well-suited to working in-and-around occupied space, which is often part-and-parcel with renovation work, and which requires enhanced safety, noise control and dust abatement protocols."

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects.

For additional information please contact Ms. Paula Scales at (603) 641-9455 or visit [www.brookbuild.com](http://www.brookbuild.com). ###
