

**FOR IMMEDIATE RELEASE**

## Brookstone Builders, Inc. Completes US Navy Shipyard Project

**MANCHESTER, NH** – (April 27, 2016) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have completed a demolition and renovation project for the **US Navy**.

The project involved interior updates in an existing structure at the **Portsmouth Naval Shipyard** to provide personnel with additional kitchen spaces within an occupied security area. The scope-of-work included the overall expansion of two kitchenette areas, select demolition, and installation of new custom cabinetry, flooring, and finish work. Due to the security requirements of the areas to be renovated, all work had to be coordinated on both 1<sup>st</sup> and 2<sup>nd</sup> shifts with security escorts.

**Erik Crisman** was Brookstone Builders' Project Manager, and Brookstone Builders served as a sub-contractor on this project, with **NADIAD, Inc.** of New Jersey serving as the primary contractor.

"We appreciate our professional relationships with the Navy and Nadiad, Inc.," said Brookstone Builder's President **Paula Scales**. "Our crews are well-suited to working in areas near or around occupied space, and we especially enjoy working with the Navy's streamlined processes and straightforward protocols for communication."

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects.
