

FOR IMMEDIATE RELEASE

Brookstone Builders, Inc. Awarded Officer's Club Project

MANCHESTER, NH – (July 28, 2016) **Brookstone Builders, Inc.**, construction managers and general contractors headquartered in Manchester, New Hampshire, recently announced that they have been selected to perform a renovation and systems upgrade project by the **US Navy**.

This fast-track initiative will involve interior renovations and HVAC-system updating in the officer's club building at the **Portsmouth Naval Shipyard**. The scope-of-work will include new ceilings and walls, electrical and architectural upgrades, interior finish work, and the installation of a dormer on the building's slate roof to accommodate the new HVAC unit. The new system will be more energy efficient, and will also have sufficient capacity to properly heat and cool the entire facility.

Erik Crisman will serve as Brookstone Builders' Project Manager, and Brookstone Builders will be the sub-contractor on this project, with **CCI Solutions LLC** of Augusta, Maine serving as the primary contractor.

"We appreciate our professional relationships with the Navy and CCI," said Brookstone Builder's President **Paula Scales**. "Our crews are well-suited to accommodate the accelerated timeline associated with this project as well, which will be easier to accomplish thanks to the Navy's streamlined processes and straightforward protocols for communication."

A woman-owned enterprise, **Brookstone Builders, Inc.** was founded in 1984. The company provides commercial, industrial, and design-build solutions throughout northern New England, and has also been involved in a wide range of specialty and renovation projects.
